

Budapest VI. district Andrásy út

265 000 000 HUF

Next to Andrásy Avenue, but not on Andrásy Avenue, there is a loft space for sale suitable for the construction of 11 apartments, with a valid building permit, on the fourth floor and in the attic. These apartments can be sold with a 5% VAT. The property is free of any encumbrances and is owned outright (1/1). It is possible to burden the project with a construction loan. The building's fire wall is adjacent to the building on Andrásy Avenue, and the entrance is located 30 meters away from Andrásy Avenue, where new apartments are currently offered at a price of 8000-10000 EUR/m². A 640m² apartment with a 90m² terrace and optionally a 133m² panoramic rooftop terrace can be built. It is important to note that the redemption of parking spaces must still be paid according to the 2019 regulations, allowing significant savings compared to obtaining a new permit.

ID number	267811
Type	For sale - Building lot
Space	640 m ²
